The University of Maine and The War

PRINTED AT
THE UNIVERSITY PRESS
ORONO, MAINE

Foreword

THIS PAMPHLET IS PREPARED FOR THE PURPOSE OF GIVING INFORMATION TO THE ALUMNI, STUDENTS, AND FRIENDS OF THE UNIVERSITY OF MAINE. IT IS BELIEVED THAT THERE SHOULD BE A PERMANENT RECORD MADE OF THE WAR SERVICES OF THE INSTITUTION. WHILE CAREFUL INQUIRY HAS BEEN MADE, IT IS DOUBTLESS TRUE THAT MANY OF THE SONS OF MAINE NOW IN THE SERVICE ARE NOT HERE RECORDED. IT IS HOPED THAT EVERY ONE INTO WHOSE HANDS THIS PAMPHLET FALLS WILL BE KIND ENOUGH TO FORWARD TO THE UNIVERSITY CORRECTIONS AND ADDITIONS TO THE INFORMATION ALREADY GIVEN. AT A LATER DATE THE INSTITUTION WILL ISSUE ANOTHER EDITION OF THIS BULLETIN AND MAKE IT COMPLETE AND ACCURATE IN EVERY PARTICULAR.

MAR 8 1910

The University of Maine and The War

Immediately following the declaration of war, meetings of students and the faculty were held in which methods of service were discussed and outlined. It was not necessary to urge loyalty. That was spontaneous, enthusiastic, and unstinted.

A telegram was sent to the President of the United States offering him the services of the institution without any reservations whatever. A reply of cordial appreciation was received from the White House.

Secretary of War Baker was furnished detailed information as to the University's facilities in technical and scientific fields. The University indicated its readiness to use all its facilities, both of equipment and men, in any service demanded by the War Department. It also offered to modify courses and start new ones to meet specific needs.

The Governor and Council of the State of Maine were kept informed as to the war activities of the University and were asked to make suggestions for other forms of service.

The daily schedule was changed by shortening the hours so that additional time was made available for military instruction. Many students who had completed the required military work at once enrolled in the new classes that were formed. Particular attention was given to classes for the training of prospective officers. Many of the men who took advantage of these courses have since received commissions.

In the weeks immediately following the declaration of war, large numbers of students enlisted in various branches of the service. Many other students left the campus to take positions on farms or in muni-

THE UNIVERSITY OF MAINE

tion factories. All students who left early to engage in work of any sort made necessary by the war were given full credit for the semester.

During the spring semester, courses were given in First Aid by Dr. Young. Among the girls, there were approximately 125 students enrolled in these courses. Many finished the course, took the examination, and received the First Aid certificate from the American Red Cross Society. Among the men courses were given in First Aid, bandaging, stretcher work, camp sanitation, and anesthetics. In these classes, Dr. Young was assisted for a time by Dr. Wilkins of Old Town. A special appropriation was made from the War Contingent Fund by the Governor and Council for special war courses at the summer session. Instruction was given in First Aid by Dr. Young and the members of the class took the examination at the close of the session. Provision was also made for courses in gardening and military tactics, but the season was too late for gardens and so few men enrolled in the summer school that there was practically no call for the military work.

During the summer special effort was made to inform the people of the State of the necessary contribution that education must make not only for the prosecution of the war but also for the rehabilitation of the country when peace comes. All undergraduates not in actual service were urged to return to the University and continue their education. Preparatory school graduates were urged to enter college in order that they might prepare for larger service.

The attendance for this year is about seventy percent of that of last year. The student body is characterized by great earnestness. The work in all departments is unusually good. Great interest is taken in military work and more time is given to it than heretofore.

Many members of the faculty have been given leave of absence to enter the service of the Government; some in the army, some in the navy, and many others as experts in the departments at Washington. Dean Merrill of the College of Agriculture is the Federal Food Administrator for Maine with headquarters in Winslow Hall. The various activities of members of the faculty are shown in the published list which follows.

In the latter part of October, the girls of the University conceived the idea of sending to undergraduates of the University of Maine in the service Christmas packages. The financial response to the request

AND THE WAR

made by the girls was liberal. They prepared and sent about 200 packages, some overseas and the others to men in camps in the United States. That these were highly appreciated by the men is shown in the letters received from them, some of which are printed in this bulletin.

SERVICE FLAG PRESENTED

(Clipping from "The Campus" of February 5)

At the chapel exercises held in Alumni Hall on Monday morning, January 28, the student body was given a surprise when President Aley requested the students to open the services by the singing of the "Star Spangled Banner" and then presented to the student body a huge service flag as a gift from the Junior Mask, the honorary Junior society. The flag had been skillfully rolled into a ball and then suspended from the back of the Assembly Hall in such a manner that at President Aley's signal it was suddenly dropped into full view. The flag is an immense one, being ten feet by six, and is of the patented design with red border and a white field. Instead of numerous small stars, each representing a man in the country's service, this flag contains one large blue star upon which are sewed the white numerals, 609. President Aley spoke of the significant fact that altho the flag had been ordered but two weeks ago the records in the university's office showed an increase of sixty-three more Maine men within that short time. He then stated that, of these 609 men in service, there are now 288 officers and this figure does not include the Maine men now in training camps from which they will be graduated as officers. After reading a poem by Rupert Brooke as an expression of the spirit which has caused these men to enter their country's service, President Aley spoke at some length on the principles for which these men are willing to offer up their lives. In closing, he spoke of four Maine men who have already in this war made the "supreme sacrifice" and told of the blinding, perhaps for life, of a fifth Maine man, by a gas attack.

These have made the Supreme
Sacrifice

AND THE WAR

ALUMNI AND UNDERGRADUATES

*Temporarily released from active service to return to college

†Enlisted or drafted. Waiting to be called

‡Temporarily released from service to return to college. Recalled to active service

1884

E. F. Ladd, *Phi Gamma Delta*, Member of Federal Food Commission, appointed by President Wilson, N. D. Agricultural College, Fargo, N. D.

1893

W. W. Crosby, *Beta Theta Pi*, Lieutenant Colonel, in acting command, Camp McClellan, Ala.

H. M. Smith, *Beta Theta Pi*, Major, 1st Maine Heavy Field Artillery. Discharged for physical disability, January 21, 1918

1895

†A. H. Buck, *Beta Theta Pi*, Signal Officers' Reserve Corps

Charles D. Thomas, *Kappa Sigma*, Captain, Co. B, 507th U.S. Engineers, Camp Travis, San Antonio, Texas

1896

F. A. Hobbs, *Alpha Tau Omega*, 2d Lieutenant, Quartermaster Corps, Base Hospital, Camp Devens, Mass.

P. F. Walker, *Phi Gamma Delta*, Lieutenant Colonel, 109th U.S. Engineers, Camp Cody, N. M.

G. B. Wilkins, *Kappa Sigma*, Civil Engineer, U.S. Naval Reserves

THE UNIVERSITY OF MAINE

1897

- S. S. Bunker, *Phi Gamma Delta*, Captain, Co. C, 503d U.S. Engineers, Camp Merritt, Tenafly, N. J.
A. S. Cowan, *Phi Gamma Delta*, Colonel, Signal Corps, Camp Alfred Vail, Little Silver, N. J.

1898

- D. T. Merrill, Lieutenant Colonel, Infantry, Camp Sheridan, Ala.
F. W. Sawtelle, *Phi Kappa Sigma*, Lieutenant, 13th U.S. Engineers (Railway), American Expeditionary Forces, France
A. A. Starbird, *Phi Kappa Sigma*, Colonel, Inspector General Department, War Department, Washington, D. C.

1899

- L. H. Ford, Lieutenant, Medical Reserve Corps, 102d Machine Gun Battalion, 51st Brigade, American Expeditionary Forces, France

1900

- C. P. Gray, *Alpha Tau Omega*, 1st Lieutenant, Medical Reserve Corps, 107th U.S. Infantry, Camp Wadsworth, S. C.

1901

- L. H. Harvey, *Phi Gamma Delta*, Director of Red Cross, Kalamazoo, Mich.
W. F. Hussey, *Alpha Tau Omega*, Captain and Regimental Adjutant, 301st U.S. Engineers, Camp Devens, Mass.

1902

- A. R. Davis, *Kappa Sigma*, Captain, 14th Battalion, 166th Depot Brigade, Camp Lewis, Wash.

1904

- H. S. Gregory, Captain, New Hampshire State Guard, Berlin, N. H.
E. E. Holt, Member of Medical Advisory Board representing State of Maine, appointed by President Wilson.

AND THE WAR

1905

- L. I. Johnstone, *Alpha Tau Omega*, Lieutenant, Canadian Officers' Training Corps, Manitoba Battalion, Winnipeg, Man.
- E. O. Sweetser, *Sigma Chi*, Captain, 104th U.S. Engineers, Camp McClellan, Anniston, Ala.
- †Alphonso Wood, *Beta Theta Pi*, 1st Lieutenant, Engineer Reserve Officers' Corps

1906

- W. P. Hews, *Alpha Tau Omega*, Captain, 4th Co., Engineer Reserve Officers' Training Corps, Camp Lee, Petersburg, Va.

1907

- F. S. N. Erskine, *Sigma Nu*, Lieutenant, U. S. S. Texas, Care Postmaster, New York City
- Ernest Lisherness, *Phi Gamma Delta*, Captain, Engineer Reserve Officers' Training Corps, Co. 7, Camp Lee, Petersburg, Va.
- A. R. Lord, Captain, 513th U.S. Engineers, Camp Travis, San Antonio, Texas
- J. S. Lowell, *Beta Theta Pi*, Lieutenant, U.S. Navy, Care Navy Department, Washington, D. C.
- S. B. Orne, 2d Lieutenant, Engineers, U.S. Coast Guard, Washington, D. C.
- A. W. Stevens, *Beta Theta Pi*, Aviation, Kelley Field, San Antonio, Texas
- M. W. Weld, *Theta Chi*, Saper, #1078228, 4th Canadian Railway Troops, Care Army P. O., London, England

1908

- E. C. Coleman, *Delta Tau Delta*, 2d Lieutenant, Quartermaster Corps, Camp Devens, Mass.
- J. V. Hunting, Sergeant, Medical Department, Post Hospital, Fort Williams, Maine
- G. R. Knight, *Theta Chi*, 1st Lieutenant, 2d U.S. Engineers, American Expeditionary Forces, France
- A. E. Tremaine, Instructor, Engineering Regiment, Wentworth Institute, Boston, Mass.

THE UNIVERSITY OF MAINE

1909

- Charles Kinghorn, 1st Lieutenant, Medical Reserve Corps, Co. 10, Medical Officers' Training Corps, Camp Greenleaf, Fort Oglethorpe, Ga.
- N. H. Mayo, *Sigma Chi*, with Storage Commission, Council of National Defense, 5216 New Interior Building, Washington, D. C.
- C. A. Plumly, *Phi Kappa Sigma*, Captain, Co. C, 302d U.S. Engineers, Camp Upton, N. Y.
- F. E. Simmons, Chief Machinist Mate, U.S. Naval Reserves, Naval Station, Rockland, Maine
- Harry M. Woods, *Kappa Sigma*, Private, Third Officers' Training School, Camp Devens, Mass.

1910

- W. C. Bagg, *Beta Theta Pi*, Private, Third Officers' Training School, Camp Devens, Mass.
- L. M. Bragg, *Phi Gamma Delta*, 2d Lieutenant, 307th U.S. Engineers, Camp Gordon, Ga.
- W. M. Chase, Private, Third Officers' Training School, Camp Custer, Mich.
- F. W. Conlogue, Private, Third Officers' Training School, Camp Devens, Mass.
- R. W. Crocker, 1st Lieutenant, Medical Dept., Sanitary Corps, (Special Work with Bureau of Mines), 24 Observatory Apt., Hall Place, N. W., Washington, D. C.
- H. K. Dyer, *Sigma Chi*, 2d Lieutenant, New Hampshire Regiment, Camp Green, Charlotte, N. C.
- L. W. Gardner, *Theta Chi*, Corporal, Co. C, 104th U.S. Infantry, 26th Division, American Expeditionary Forces, France
- R. P. Littlefield, *Alpha Tau Omega*, 2d Lieutenant, Field Artillery
- A. E. Oak, *Beta Theta Pi*, Lieutenant-Commander, U.S. Navy, Fore River Ship Yards, Quincy, Mass.
- C. F. Smith, *Phi Gamma Delta*, 1st Lieutenant, Signal Reserve Corps, Officers' Training Battalion, American Expeditionary Forces, France
- F. E. Southard, *Kappa Sigma*, 1st Lieutenant, 1st Maine Heavy Field Artillery, Camp Green, N. C.

AND THE WAR

G. A. Webster, Corporal, 83d Aero Squadron, Kelley Field, San Antonio, Texas

1911

J. S. Barker, *Delta Tau Delta*, 2d Lieutenant, Quartermaster Corps, Camp Devens, Mass.

A. H. Codaire, *Delta Tau Delta*, 1st Lieutenant, Co. D, 301st U.S. Engineers, Camp Devens, Mass.

F. H. Derby, *Alpha Tau Omega*, Lieutenant, 317th U.S. Field Artillery, Camp Jackson, S. C.

A. W. Goodwin, *Delta Tau Delta*, 1st Lieutenant, 132d U.S. Infantry, Camp Logan, Houston, Texas

W. S. Gould Jr., Ordnance Dept., American Expeditionary Forces, France

C. H. Grant,

A. H. Hart, *Kappa Sigma*, 1st Lieutenant, U.S. Engineering Corps Unattached, American Expeditionary Forces, France

Ernest Kingsley, Lieutenant, Junior Grade, Electrical Engineering Department, U.S. Naval Reserves, Reserve Officers' Quarters B, U.S. Naval Academy, Annapolis, Md.

C. W. Murphy Jr., Private 1st class, Aviation Section, Detachment of Flying Cadets, Love Field, Dallas, Texas

Wentworth Peckham, *Beta Theta Pi*, Sergeant, Battery F, 303d Heavy Field Artillery, Camp Devens, Mass.

P. P. Sawtelle, U.S. Naval Reserves, Holyoke Wharf, Portland, Maine

F. S. Sawyer, *Theta Chi*, 101st U.S. Engineers, 26th Division, American Expeditionary Forces, France

Sumner Waite, *Phi Gamma Delta*, Captain (Infantry), Aide-de-camp to Brig. Gen. Charles G. Morton, Camp McClellan, Anniston, Ala.

B. O. Warren, *Beta Theta Pi*, 1st Lieutenant, First Maine Heavy Field Artillery, Camp Green, N. C.

1912

J. E. Ash, *Sigma Nu*, Sergeant 1st class, Research and Inspection Division, Signal Officers' Reserve Corps, American Expeditionary Forces, France

W. R. Ballou, *Phi Gamma Delta*, Captain, 1st Maine Heavy Field Artillery, Camp Green, N. C.

THE UNIVERSITY OF MAINE

- R. L. Buzzell, *Delta Tau Delta*, Corporal, Battery F, 303d Heavy Field Artillery, Camp Devens, Mass.
- †E. F. Carleton, *Lambda Chi Alpha*, Drafted
- J. P. Cronin, Camp Devens, Mass.
- N. C. Cummings, *Phi Gamma Delta*, 2d Lieutenant, Ordnance Dept., National Army, Camp Devens, Mass. (Commanding Officer, 301st Mobile Repair Shop)
- G. V. Dyer, *Sigma Chi*, 2d Lieutenant, Quartermaster Corps, Supply Office, 151st Depot Brigade, Camp Devens, Mass.
- F. E. Fish, *Lambda Chi Alpha*, 1st Lieutenant, Ordnance Dept., Sandy Hook Proving Grounds, Fort Hancock, N. J.
- Marian Estabrooke Hunt, *Alpha Omicron Pi*, State Food Conservation Work, Orono, Maine
- L. W. Jacobs, *Sigma Nu*, 2d Lieutenant, 3d Battalion, 20th U.S. Engineers, American Expeditionary Forces, France
- †W. M. McDonald, *Phi Gamma Delta*, Drafted
- L. R. Moore, *Delta Tau Delta*, 1st Sergeant, #2329874, 71st Co., Canadian Forestry Corps, British Expeditionary Forces, France
- O. W. Mountfort, *Phi Kappa Sigma*, 2d Lieutenant, Headquarters Co., 156th Depot Brigade, Camp Jackson, S. C.
- A. M. Nickels, *Sigma Alpha Epsilon*, 2d Lieutenant, Quartermaster Corps, Motor Truck Co. #387, Fort Sam Houston, Texas
- C. M. Osgood, *Theta Chi*, Private, Band, Ambulance Corps, Allentown, Pa.
- E. M. Partridge, *Delta Tau Delta*, 2d Lieutenant, Quartermaster Corps, Camp Devens, Mass.
- W. H. Savary, *Phi Eta Kappa*, Private, Third Officers' Training School, Camp Devens, Mass.
- L. M. Smiley, *Phi Gamma Delta*, Private, Co. I, 23d U.S. Engineers, Camp Meade, Md.
- R. L. Talbot, *Phi Eta Kappa*, 1st Lieutenant, 153d Depot Brigade, Camp Dex, N. J.
- C. W. Tartre, *Sigma Alpha Epsilon*, 2d Lieutenant, Headquarters Co., 302d U.S. Infantry, Camp Devens, Mass.

1913

- M. C. Bird, *Beta Theta Pi*, Chief Machinist, U.S. Navy, U. S. S. C. 23, Care Postmaster, New York City

AND THE WAR

- I. M. Bradbury, *Phi Gamma Delta*, Private, 23d U.S. Engineers, Camp Meade, Md. Died January 16, 1918, at Camp Meade of spinal meningitis
- J. S. Brooks, *Phi Kappa Sigma*, 1st Lieutenant, Co. E, 309th U.S. Infantry, Camp Dix, N. J.
- E. E. Chase Jr., *Sigma Chi*, 2d Lieutenant, Battery F, 1st Maine Heavy Field Artillery, Camp Green, N. C.
- †W. E. Morrison, Drafted
- †H. A. Richards, *Lambda Chi Alpha*, Drafted

1914

- C. F. Allen, Private, 101st U.S. Engineers, 26th Division, American Expeditionary Forces, France
- C. R. Atwood, *Sigma Alpha Epsilon*, Foreman, Mill Unit #1, Canadian Forestry Corps, Ardgay, Ross-shire, Scotland

F. F. Smiley, *Phi Kappa Sigma*, Musician 3d class, 103d U.S. Infantry Band, 26th Division, American Expeditionary Forces, France
S. R. Smiley, *Theta Chi*, Harvard Radio School, Cambridge, Mass.
R. J. Smith, *Theta Chi*, Corporal, Quartermaster Corps Training School, Receiving Co. #3, Camp Joseph E. Johnston, Jacksonville, Fla.

AND THE WAR

- C. B. Stephenson, *Beta Theta Pi*, Chief Quartermaster, U.S. Naval Reserves, U.S. Coast Guard Station #4, Jonesport, Maine
- S. A. Stevens, *Phi Gamma Delta*
- W. S. Stevenson, Private, 101st U.S. Trench Mortar Battery, 26th Division, American Expeditionary Forces, France
- *C. W. Stewart, *Alpha Tau Omega*, Quartermaster, U.S. Naval Reserves
- H. K. Strout, Private, Headquarters Co., 101st U.S. Engineers, 26th Division, American Expeditionary Forces, France
- C. C. Sweatt, *Phi Eta Kappa*, Corporal, 2d Co., Field Artillery, Fort Slocum, N. Y.
- W. H. Taylor, Private, Medical Corps, Evacuation Hospital #5, Camp Greenleaf, Fort Oglethorpe, Ga.
- J. H. Thomas, Sergeant, 101st U.S. Engineers, 26th Division, American Expeditionary Forces, France
- A. W. Thompson, Private, Battery A, 1st Maine Heavy Field Artillery, Camp Green, N. C.
- G. E. Thompson, *Theta Chi*, Musician 3d class, 103d U.S. Infantry Band, 26th Division, American Expeditionary Forces, France
- ‡A. J. Tierney, *Sigma Alpha Epsilon*, Machinist Mate 1st class, U.S. Naval Reserves, Bar Harbor, Maine
- N. E. Torrey, *Kappa Sigma*, Boatswain's Mate 1st class, U.S. Naval Reserves, Naval Cadet School, Dana Hall, Cambridge, Mass.
- E. G. Tupper, Private, 103d U.S. Infantry, 26th Division, American Expeditionary Forces, France
- N. E. True, *Lambda Chi Alpha*, 2d Lieutenant, 18th Co., U.S. Marine Corps, Paris Island, S. C.
- M. M. Weymouth, *Alpha Tau Omega*, 2d Lieutenant, Co. L, 51st Pioneer Regiment, Spartansburg, S. C.
- T. S. Whitehouse, *Sigma Nu*, Private, Third Officers' Training School, Coast Artillery Corps, Fort Monroe, Va.
- †C. M. Winter, *Delta Tau Delta*, Aviation
- K. T. Wooster, *Sigma Chi*, Quartermaster, U. S. S. Edward Peirce, Care Postmaster, New York City
- C. M. Ziegler, *Beta Theta Pi*, Private, Third Officers' Training School, Camp Devens, Mass.

1920

- †Lewis Abramson, *Phi Epsilon Pi*, Drafted
- H. B. Atkinson, Private, Co. D, 303d Heavy Field Artillery, Camp Devens, Mass.

THE UNIVERSITY OF MAINE

- L. G. Atwood, *Sigma Nu*, Radio Electrician 3d class, U.S. Naval Reserves, Machias, Maine
- ‡W. B. Averill, *Lambda Chi Alpha*, Quartermaster 1st class, U.S. Naval Reserves
- *J. W. Barbeau, U.S. Naval Reserves
- L. P. Barbour, U. S. S. Covington, Division 1, Care Postmaster, New York City
- *J. S. Barron, *Alpha Tau Omega*, Seaman, U.S. Naval Reserves
- H. P. Black, Engineering Dept., U.S. Balloon School, Omaha, Neb.
- L. J. Bonfilio, Private, 1st Co., Coast Artillery Corps, Fort Williams, Maine
- C. P. Bryant, *Phi Gamma Delta*, Private, Third Officers' Training School, Camp Devens, Mass.
- D. E. Campbell, U.S. Naval Reserves, Bumkin Island, Boston, Mass.
Died January 20, 1918 at his home in Island Falls, of pneumonia, contracted on duty
- L. G. Cates, Clerk, U.S. Navy Yard, Portsmouth. N. H.
- R. W. Chaplin, *Phi Eta Kappa*, Sergeant, Headquarters Co., 76th U.S. Field Artillery, Camp Shelby, Miss.
- *E. E. Christianson, *Alpha Tau Omega*, U.S. Naval Reserves
- A. N. Couri, *Delta Tau Delta*, Quartermaster 1st class, U.S. Naval Reserves, U. S. S. Gurka, Portland, Maine
- H. B. Cousins, *Phi Gamma Delta*, U.S. Naval Reserves, Bar Harbor, Maine
- †H. D. Crosby, *Sigma Nu*, Aviation
- Paul DeCoursey, Private, 303d Heavy Field Artillery, Camp Devens, Mass.
- P. D. Dempsey, *Sigma Chi*
- *V. E. Drew, *Alpha Tau Omega*, U.S. Naval Reserves
- J. A. Dunton, *Phi Eta Kappa*, Private, Section 606, Ambulance Corps, Allentown, Pa.
- G. E. Edgerly, *Phi Gamma Delta*, Harvard Cadet Training School, Cambridge, Mass.
- C. L. Emerson, Private, Embarkation Hospital, Camp Stuart, Newport News, Va.
- A. C. Freeman, *Sigma Chi*, Private, Battery A, 103d U.S. Field Artillery, 26th Division, American Expeditionary Forces, France
- *F. H. Friend, *Kappa Sigma*, Quartermaster 1st class, U.S. Naval Reserves
- H. M. Gardiner, *Lambda Chi Alpha*, Chief Quartermaster, U.S. Naval Reserves, Bar Harbor, Maine

AND THE WAR

- R. I. Goding, Died Jan. 15, 1918 at Base Hospital, Camp Gordon, Ga.
Stanton Glover, *Sigma Chi*, Private, 102d Ambulance Corps, 101st U.S.
Sanitary Train, 26th Division. American Expeditionary Forces,
France
- E. C. Hall, *Phi Gamma Delta*, Chief Quartermaster, U.S. Naval Reserves,
707 Oxford Road, Ann Arbor, Mich.
- H. G. Hall, *Phi Eta Kappa*, Musician 3d class, 103d U.S. Infantry Band,
26th Division, American Expeditionary Forces, France

*In active service

†On leave of absence

- Robert J. Aley, President. Member, Secondary School Section of the Committee on Engineering and Education, Council of National Defense, Advisory Commission; Member, State Committee of War Savings Stamps; Member, N. E. A. Committee on War Savings Stamps for New England
- Harold S. Boardman, Dean of the College of Technology. Member, Orono Fuel Committee
- Joseph H. Bodwell, County Agent for Piscataquis County. Member, County Committee on Food Production
- †*Ralph F. Colburn, Bookkeeper. Private 1st class, Battery F, 1st Maine Heavy Field Artillery, Camp Green, N. C.
- *John D. Cook, Sergeant, Regular Army, Instructor in Military Science and Tactics. Commissioned 2d Lieutenant
- *H. Vigor Cranston, Secretary, Christian Association. Yeoman 3d class, U.S. Navy, U. S. S. President Lincoln, Care Postmaster, New York City
- Arthur L. Deering, County Agent for Kennebec County. Secretary, County Committee on Food Production
- Charles J. Dunn, Treasurer. Member, State Committee of Public Safety. Division Federal Appeal Officer for the Draft Board
- Windsor P. Daggett, Professor of Public Speaking. Member, Committee on Y. M. C. A. Drive

THE UNIVERSITY OF MAINE

- E. W. Davee, Instructor of Mechanical Engineering. Member, Committee on Red Cross Drive
- Clarence A. Day, County Agent for Washington County. Chairman, County Committee on Food Production; Chairman, Committee on Food Conservation
- Jane L. Fayle, Stenographer in the Experiment Station. Private Secretary to Doctor Pearl of the Federal Food Administration, Washington, D. C.
- *Raymond Floyd, Instructor of German. Enlisted in Aviation Section, Signal Corps. Discharged for Physical Disability, February 14, 1918
- Frances R. Freeman, Professor of Home Economics. Home Economics Director for the State Food Administration
- James A. Gannett, Registrar. Chairman, Orono Red Cross Drive; Member, Orono Second Liberty Loan Committee; Member, War Savings Stamps Committee
- Albert K. Gardner, County Agent for Franklin County. Chairman, County Committee on Food Administration
- William M. Gray, County Agent for York County. Member, County Committee on Food Production
- †Herman H. Hanson, Chemist in the Experiment Station. Member, Orono Red Cross Committee; Member, Second Liberty Loan Committee; Chairman, Orono Home Defense Committee
In charge of the section of delinquent licensees, Statistical Division, Federal Food Administration, Washington, D. C.
- *Horace M. Hickam, Major, U. S. A., Professor of Military Science and Tactics. Aviation Section, Signal Corps, Garden City, Long Island, N. Y.
- †*Ralph M. Holmes, Assistant Professor of Physics. U.S. Weather Bureau, Boston, Mass.
- *Robert O. Hutchinson, Instructor of Physics. Drafted
- Maurice D. Jones, Farm Management Demonstrator. Member, Penobscot County Committee on Food Production
- Carl H. Lckberg, Associate Professor of Mechanical Engineering. Member, Committee for Y. M. C. A. Drive
- *B. O. McAnuey, Assistant Professor of English. Enlisted
- James McClure Matthews, Associate Professor of Economics and Sociology. Assistant in Licensing Division of the State Food Administration

AND THE WAR

- Leon S. Merrill, Dean of the College of Agriculture and Director of the Agricultural Extension Service. Federal Food Administrator for the State of Maine; Vice Chairman, Sub-Committee of Food Production of the State Public Safety Committee
- †John R. Minor, Computer in the Experiment Station. Assistant, Statistical Division, Federal Food Administration, Washington, D. C.
- Warner J. Morse, Plant Pathologist in the Experiment Station. Leader in Extension work along special plant disease control
- Edith M. Patch, Entomologist in the Experiment Station. Leader in Extension work along special insect control work
- †Raymond Pearl, Biologist in the Experiment Station. In charge of the Statistical Division, Federal Food Administration, Washington, D. C.
- Catharine N. Platts, Extension Instructor in Home Economics. Director of state-wide Food Conservation Campaign during July and August, 1917. Appointed Leader of Emergency Home Demonstration Work in Maine October 1, 1917
- Blanche F. Pooler, Clerk in the Experiment Station. In charge of Office of Statistical Division, Federal Food Administration, Washington, D. C.
- *Anton A. Raven, Instructor of English. Enlisted in U. S. Navy
- †L. J. Reed, Associate Professor of Mathematics. Assistant, Statistical Division, Federal Food Administration, Washington, D. C.
- Walter H. Rogers, Assistant Chemist in the Experiment Station. In munition work, Care Dupont Powder Co., 117 C St., Carney's Point, N. J.
- Harold J. Shaw, County Agent, Androscoggin and Sagadahoc Counties. Field Secretary, Androscoggin County Committee on Food Production
- Fuller G. Sherman, Assistant Chemist in the Experiment Station. In munition work, Care Dupont Powder Co., Woodbury, N. J.
- *Norman C. Small, Instructor of Civil Engineering. Private, Third Officers' Training School, Camp Devens, Mass.
- †Harry W. Smith, Assistant Professor of Bacteriology. Assistant County Agent Leader (Emergency Extension Work)
- George W. Stephens, Professor of Economics and Sociology. Executive Assistant for the cooperation of social, religious, and educational organizations with the State Food Administration

THE UNIVERSITY OF MAINE

- †Frank M. Surface, Biologist in the Experiment Station. Assistant chief, Statistical Division, Federal Food Administration, Washington, D. C.
- †Herman P. Sweetser, Assistant Professor of Horticulture. Executive Secretary to Leon S. Merrill, State Food Administrator
- †Harley R. Willard, Associate Professor of Mathematics. Assistant, Statistical Division, Federal Food Administration, Washington, D. C.
- Charles D. Woods, Director of the Experiment Station. Member, State Committee of Public Safety on Food Production; Chairman, State Fuel Wood Committee. In charge of fuel wood supply for the state
- †*William J. Young, Professor of Physical Education and Director of Athletics. First Lieutenant, Medical Reserve Corps, 311 Sanitary Train, Field Hospital 342, Camp Grant, Illinois

U. OF M. DELEGATION LEADS COLLEGE MEN

Proficiency Highest Says Camp Devens Officer

(Clipping from Portland Sunday Telegram)

ORONO, February 9, 1918. Information that the University of Maine delegation at the Reserve Officers' Training Camp at Camp Devens, Ayer, Mass., has shown the highest proficiency of any of the collegiate sections since the third school for future officers opened, is contained in a letter received here from a high official at Devens. The letter cannot be quoted in full as it was a personal communication; however, it causes a great deal of satisfaction on the part of the university authorities and members of the military department here.

Major Frank R. Lang, U. S. A. Retired, Professor of Military Science and Tactics at the University this year, detailed by the Government to handle the R. O. T. C. which comprises the U. of M. Cadet Regiment, lays all the credit at the feet of Capt. Frank S. Clark. Instructor in 1914-1916, now in France with the 6th U. S. Heavy Artillery, and Major Horace M. Hickam, Instructor last year, who is now in the Aviation section at Garden City, L. I. Although many of the students who make up U. of M.'s quota in the training camp at Devens received some instruction under him last all, Major Lang says that Capt. Clark and Major Hickam are wholly responsible for the fine showing which is gratifying to the officials of the institution.

AND THE WAR

OUR NEW COMMANDANT

Brief Sketch of "Maine's" New Commander

The University of Maine's new professor of military science and tactics, Major Frank R. Lang, has participated in three American foreign wars since 1898, and was twice wounded, once in the Boxer rebellion, so severely that he is lucky to be alive. He was leading his regiment into battle when shrapnel burst directly over his head showering him with fragments. He was unconscious for two days and in the hospital for a year. He fought in the Spanish and Philippine wars, with Pershing in the latter conflict. Besides having seen more service than the average American of 40 years, he is also a scholar, having received, among others, the doctor of philosophy and master of laws degrees. In short, his life has been crowded with events and now that America's greatest war of the present century is on he is extremely anxious to get into it.

Major Lang is of special interest to the people of Maine at large because he is a Portland boy. He was born in Portland and studied law as a young man, graduating from Columbia university in 1894. He practiced law until the Spanish war broke out, when he was a second lieutenant in the First Maine infantry. Soon after, he was appointed a second lieutenant in the Ninth U. S. cavalry, regular army. He went at once to the Philippines, where he served throughout the Spanish war, meanwhile having been transferred to the Ninth U. S. infantry. He was there two years.

When the foreign legations were besieged by Boxers in China in 1900, his regiment was ordered from the Philippines to the relief of the American diplomatic contingent.

On the road from Tien Tsin to Peking, there was fighting all the way. The Boxers had only ancient weapons, including swords, but the Imperial troops, who had gone over to the Boxer cause and were out to annihilate the foreign devils, were well armed with Krupp field guns and modern rifles. On July 13, 1900, Major Lang, then second lieutenant, received a bullet in his left arm but this was not to be his only wound, for on Aug. 6, at the battle of Yangstun, while leading his regiment, a shell burst over him. He didn't know that he had been struck until a gentle nurse informed him of the fact in a hospital two days later. He then learned that his horse had been killed under him. He had been fairly rained with pieces of shrapnel and it took him a year to recover sufficiently to leave his bed.

In the Philippine war, he was in the battle of Tagologo, under General Scott, and at Jolo, fought with Captain Pershing, now the general of the American army in France. Major Lang, like most soldiers who have seen considerable service, is not exactly loquacious when speaking of his experiences.

He made tours to the Philippines after that, in 1904, 1905, 1907 and 1908. In 1905, he was in Manila Bay when the remnant of the Russian

THE UNIVERSITY OF MAINE

fleet, which had received such a beating from Admiral Togo, limped into the harbor directly after the battle. Major Lang then was appointed observer in the Russo-Japanese war for the American army and during the remainder of that conflict, witnessed numerous battles between the forces of the Czar and those of the Japanese emperor. He could tell a great many interesting things about this war, but limits his remarks to the fact that the Japanese first introduced trench fighting on a scale comparable to the present war at that time, and also used captive balloons to a large extent, to judge artillery range, although of course they didn't approach the scientific method of today.

Returning to the United States, as a judge advocate of the army, he later taught in Columbia university and practiced law. He is a member of the New York, District of Columbia, Michigan, and California bars, and the Supreme Court of the United States. He intends to apply for admission to the Maine bar, also. Besides the A. B. degree, he also has the J.L. B. degree from Detroit university, 1904; A. M., Columbia, 1915; Ph. D., 1916, LL. M., 1917, and Sc. D., in Jurisprudence.

Major Lang is most youthful in appearance for a man who has seen so much of life and is a veteran of three wars. He was on the retired list when this war broke out, and it happens to be a fact that army officers above the rank of captain cannot be returned to active service without special legislation by Congress. He is eagerly awaiting that legislation so that he can add still more to his already long campaign badge, now one of the longest worn by any army officer.

MAINE MAN AWARDED A CROIX DE GUERRE

Herbert P. Halvorson of Pawtucket, R. I. and a former student at the University of Maine, has been cited for unusual bravery on the battlefield of France and was recently awarded the Croix de Guerre. The following letter was written to his parents:

"All of us feel happy, for today finds us over 60 miles away from the front, where the roar of guns and action of war cannot reach us. Our section was relieved on Saturday afternoon and we immediately packed up and left for France, arriving late Saturday night. Yesterday, Sunday, was a day of rest for all and at dinner we were given a surprise by the chief of the section. It included soup, roast beef, potatoes, spinach, delicious cookies, and real canned peaches from America. It certainly tasted good and we appreciated it.

"Today all of us began work on our cars, washing, greasing, and getting them into good condition again. Our car is detailed to the town where the chief doctor of the section is located and we are here in case any of the soldiers in this division are sick and need transportation to the hospital. We are quartered in a quaint chateau with the doctor and his staff, and the quarters are palatial, speaking in war terms, while sharing the officers' food is certainly a treat.

AND THE WAR

"What I am going to say next I take a great deal of pride in writing. Saturday night the general orders of the attack which we worked in came out and our chief received a copy. In it our whole section was commended for its splendid work. Besides this, five of our men, including myself, were cited for unusual bravery and good work. This gives the five of us the Croix de Guerre, or in English, the Cross of War. On Thursday the commandant of the division will arrive in camp to decorate us with the medals. It is a big honor in France to receive a war cross, and all of us feel mighty proud. Receipt of the cross brings all of us also two days' permission in Paris, and probably Saturday of this week the five of us will leave for a two days' stay there. I know you will feel proud when you hear of this, for it shows at least the ambulance drivers didn't go to France to get out of the war or 'slack.'"

Mr. Halvorson entered the University of Maine with the Class of 1917, transferring to Brown University after his first year. He was a Senior in Brown when he left for Europe as a member of the Brown Unit to join the American Ambulance Corps. Mr. Halvorson is a member of the Sigma Chi fraternity.

His parents have informed President Aley that the rumor that their son had lost his eyesight due to a gas attack was started from the fact that his eyes were slightly affected by gas, but nothing serious has resulted and about a month ago he was not even wearing glasses. Mr. Halvorson has transferred to the Aviation Section and is still in France in this section of the service.

Maine's famous band—the one that saw service in the summer of 1916 on the Mexican border—is across the pond. The following letter has been received from George Dole '17.

October—, 1917

Dear—:

This the first chance I have had to write since we landed here. We arrived yesterday after a very pleasant but uneventful voyage. I will start from the time we left Westfield and give you a general outline of the trip. I can't tell you the names of places, boats, or ports, but will do the best I can to describe the trip. We were on the water for fourteen and one-half days—a full two weeks' voyage.

We left Westfield and proceeded by train to an American port, from which we embarked along with many other troops to the port of another country which took us a few days. There we were picked up by more troops and our escorts. One should not worry about the safety of American troops going over, because they are well convoyed and when they reach the submarine zone they are met by enough American and English craft to sink and chase away forty fleets of German submarines. That is all I can say about the escort. I cannot tell how many ships came over at the same time. It was a wonderful sight to see the ocean liners in their different formations, all within easy sight and reach of one

THE UNIVERSITY OF MAINE

another. It was a wonderful sight to see such a fleet gliding over the deep and expansive body of water. It made thrills run up and down my spine when I saw those ships on such a noble mission—out on the deep sea. There are a million things I want to tell you about the trip and things that happened, but it would only be scratched out by the censor and perhaps might bring trouble to U. S.

Our regiment did not all come over in the same ship. Parts of it were on three different vessels, in case of submarine attacks. I think I may say that our cargo, both soldiers and freight, was the most precious that has been transported since the outbreak of war. The enemy knew that, too, but the Almighty was behind us and we landed in safety.

The weather was ideal for the transporting of troops. The last five days of the trip were not fair, but that added to our safety for it is almost impossible for a submarine to attack in a heavy sea. The three days and nights that we traveled in the danger zone were days that the Lord had planned for us. The water was rough and the moon was not out at all. The last day we struck a big storm. Now when they tell about storms at sea, I'll know what they mean. Wow!! We were hoping for a big storm at this stage of the journey and we sure did get one! It was a corker! The last entire night at sea we struck the biggest part of it. The wind was blowing a sixty-mile-an-hour gale and the waves were tremendous. Tubley Blakney and I stayed on deck until 3 a. m. watching the terrible waves and listening to the roaring wind—when I say roaring I do not mean whistling because the way it tore up that ocean was a fright. That night from 10.30 p. m. to 1.30 a. m. we were in the most dangerous part of the danger zone, but the high sea that was running made us safe against submarines. We docked late the next night and early next morning started on our overland trip through England.

As we traveled in the day, we saw most everything. England is a wonderful and beautiful country. On account of its small size, intensive cultivation is necessary to supply the people with food. There are no waste lands as in our country. The fields were still green, but the leaves on the trees had started to change color only occasionally. It seemed wonderful to be in Europe, and yet now I can hardly believe I am so many miles from "The States" as they call our country over here. In English history, prose, and poetry, one hears of these English towns and as I traveled through them, reading the name of the station, I recalled my school and college days.

Coming over on the boat, a sergeant had many more privileges than a corporal or private. The sergeants had the second class saloon for smoking, playing cards and so forth. There were no lights of any kind on the ship after dark and no smoking was allowed on deck. It seemed strange to be sailing along without a light of any kind, way out on the ocean. A small part of the band (I was one) used to play popular music for the officers each night in the first class dining saloon.

When we disembarked the manner in which the English handled our troops was one of smoothness and rapidity. Only a short time after leaving the ship we were on trains and being whirled away to the

AND THE WAR

camp. The camp is only a temporary one. It is a place where troops come for a while before sailing for France. We expect to be here only a few days before going to France where the regiment will receive its training.

In this town where we are now, there is an artillery training school and thousands of English troops are here. Some are going to the front while others are returning. They do every thing to make a soldier as comfortable as possible. The English shrubbery here makes our quarters look like home and not a training camp.

I have talked with many soldiers who have been in trenches and they say we should be thankful that we are bandmen. In the beginning of the war, bandmen were used as stretcher bearers but so many were killed that the bands became disarranged and now they never go beyond the base and many never leave England. They move from base to base, play for the regiment part way to the trenches, and when their turn (the regiment's) in the trenches is over they meet them.

The English soldiers, in uniforms as immaculate as the President's evening suit, are a fine set of fellows and every inch soldiers. They wear caps and brass buttons and have to keep the buttons shined. The Australians dress somewhat like our soldiers and there are quite a few of them here.

Another thing I forgot to speak about is the railway coaches over here. They are built in compartments, each of which accommodates eight men. The engines look like donkey engines used in America by large corporations.

On the boat were many fellows from my home town whom I hadn't seen since I was in grammar school. I also find that many of my college chums are already in France. The way college men enlisted is a credit to the United States and her colleges.

We are well supplied with good clothing such as heavy underwear and shoes. Each night at sea, the ship's clocks were set back to comply with the change of time according to the distance traveled, so that each night we lost one-half hour's sleep. Many soldiers could not understand it.

They are very optimistic over here and I think they know what they are talking about. They believe the war will be over by Christmas, but I really think that all the nations will amass all the troops they can in Europe this winter for a final drive in the spring, that will finish all. The German soldiers don't want to fight any longer. English soldiers in taking trenches have found Germans chained to their machine guns so they would have to fight for their lives. They surrender willingly.

A year ago we were on our way back from the Mexican border. I am glad that I had a chance to receive my degree as it helps me here a great deal. I imagine that I can pick up French easily, having mastered the grammar part of it in school. We are not allowed to send souvenir post cards from this side. Remember me to all the boys and good luck to everybody.

Sergeant George E. Dole, Band Headquarters Company, 103rd U. S. Infantry, American Expeditionary Forces.

THE UNIVERSITY OF MAINE

Band, 103d U. S. Infantry,
December 29, 1917

Dear President Aley:

We, the undersigned, members of the 103d U. S. Infantry Band, from the University of Maine, desire to express our sincere thanks and appreciation to the University for the Christmas packages which were so kindly sent us.

Every package arrived here safely in spite of all the German submarines and more than that, they arrived at the most opportune time, Christmas Eve. They surely brought back fond memories of our dear Alma Mater and believe us, we will never forget Maine. We can assure you that every article in the packages will be used, in fact the contents were exactly what a soldier needs over in this country.

We are now up against a different proposition than we were a year ago at this time. Some of us were thinking about our final examinations, while others of us were thinking about the much coveted "sheepskin" which we expected in June, but now, we all have more things to think about and soon we will have a great many more. Whatever the Band does in its line of duties on the front, it surely will bring credit to the University of Maine and you can depend upon this small handful of men to put the University of Maine on the map of Europe, as we spread its glorious name from Maine to Mexico last year.

Herbert Cobb and Frank Holden are now attending an officers' school a hundred miles from here. We have forwarded their packages and in their absence we will thank you for the boys who will soon be officers.

Thanking the University again for its kindness, we all remain loyal sons of Maine.

An interesting account of Christmas in France as enjoyed by members of the Second Maine regiment band is given in a letter from George E. Thompson of Bangor.

Dear M——:

"This is the day after Christmas and we had a fine time yesterday. I thought that our Christmas would be dull, but it fooled us. I got a

AND THE WAR

box from you and one from the others, also one from the U. of M. They sent one to each of us. That makes five in all to date. I have received almost 20 letters in the last two or three days. At the Y. M. C. A. last night, they had a fine Christmas tree all lighted and decorated and it looked fine. We played a concert and then the band was presented with a grab bag. We sure did have a wonderful time; just like a bunch of kids. The building holds as many people as City hall auditorium, and it was packed with fellows. They sure were a happy and jolly crowd. Some had on funny looking masks, others paper hats of all descriptions, others with horns and whistles. You'd never think they were fighting men to see them act.

We have a very comfortable billet now. The only trouble is that we have to furnish candles for lighting purposes and they cost ten cents each. There are about three inches of snow here now and it snowed all day Xmas. The weather is about 15 above I should say; perhaps a little colder. The natives don't celebrate Christmas as much as we do. They go to church just as on Sunday. They give their presents on St. Nicholas day, which was about a month ago. New Year's is a pretty big time here so the natives tell us.

The band doesn't play out of doors here very much because the horns freeze up and make it impossible. We have played two concerts today and have another to play tonight. We had a great dinner, roast turkey, dressing, mashed potato, gravy, bread and butter, bread pudding and walnuts. That was some feed. Another company in our battalion, the one from Augusta, had a local talent show and we played for it. For recompense, we were invited to dinner. This has been a much better Christmas than we thought we were going to have. It looked pretty dull last night. We knew there was a lot of mail in France for us, but we didn't know when we were going to get it.

George E. Thompson '19

Somewhere in France
December 16, 1917

Dear Mr. Gannett:

I received a Christmas parcel from school today and I wish to send my thanks. It was a delightful surprise for me. That song entitled "Canning the Kaiser" is some song. Just after I received it, I had a whole hutful of "Canucks" singing it with all the vim and vigor that could be shown by boys from Vancouver to Nova Scotia. I also met a couple of "Yanks" today and of course I immediately produced the song. They sure enjoyed it and took a copy with them when they left.

I don't see any of the other boys but very seldom now. I am attached to District Headquarters as a clerk for the present.

My brother sent me the list of names of U. of M. boys who were in the service and it sure looks as if the good old U. of M. was supplying its share.

Again I must extend my thanks and best wishes to the U. of M.

Yours sincerely,

George Adams '18

THE UNIVERSITY OF MAINE

Ardgay, Ross-shire, Scotland

Dear Friends:

I received a copy of the "Campus" today dated November 13th. the second "Campus" I have received since my arrival. I was indeed very glad to get them as it affords news in which I am deeply interested. In the last was Dole's letter from England and I am very sorry that I did not know of their (the U. of M. Band) arrival as I could easily have gone down (to England) to see all the fellows in the band.

You may be interested in what we are doing over here. I will give you a brief outline. The Maine men over here are Churchill, Atwood (Punk), Brockway, McCann (Law), Barry (Law), Judkins and Emerson.

In all there are ten mills which are kept running by ten units of thirty-five men each. We are not under military discipline as are the Canadian Foresters.

The lumber we cut is a mixture of larch and Scotch pine (identical with the pine in front of the S. A. E. house).

There is no underbrush in the woods, thanks to large numbers of sheep. This particular lot was probably planted seventy-five or eighty years ago. The trees grow tall and straight, and is indeed a wonderful stand of timber.

Our portable mills do very good work compared with some Scotch mills near here which are very crude. The mills average about fifty thousand feet of lumber a week while running a ten hour day. But this average has varied much due to shortening of the days and excessive rains. On our arrival July 4, we could easily read a newspaper at eleven o'clock at night and we hardly knew when to turn in, there being no real darkness except on a very cloudy night. Now the sun barely dances along the horizon for four or five hours and disappears.

There is evidently no severe winter here for we are told that bicycles are used all winter, bicycles being a very popular mode of travel. However, we have had a few inches of snow at times although it quickly disappears leaving only the mountain tops white. Nearly every storm is accompanied by high winds which have wrought havoc with some of our paper-covered shacks.

I have not seen a wooden building except our own since my arrival. Everything is built of stone. Miles of stone walls enclose both sides of the highways, all of the best masonry.

The trains are a source of great amusement to us. On the arrival at a station, all the passengers, if they wish, get off and walk around. Many go into the restaurant, there being one at every station, and get a cup of tea or a sandwich which they may eat there or in the car, the cup belonging to the railroad being left *anywhere*. After five or ten minutes, a hand bell is rung by the station-master and if all are aboard they start. But if some one has ordered a meal and has not eaten it or received it, the guard who rides in the rear of the train patiently waits for the passenger and then gives the engineer the signal when the passenger resumes his seat in the car. I have seen a train held up five minutes after the customary wait while a passenger ate a lunch.

AND THE WAR

However, the trains serve their purpose and the people do not seem to worry. Perhaps much of this would be changed in normal times as many things have during the war.

I seem to have written more than I intended. Nevertheless I wish to thank those to whom I am indebted for the "Campus" and my only hope is that they will keep it coming from dear old Maine.

Sincerely yours,

Thomas W. Brittain '18

On Active Service in France
September 17, 1917

Dear B—:

Little did you think when you asked me to write to you from the wilds of France that such writing would be done on a recent model American typewriter, now did you? Luckily I am attached to Battalion Headquarters as combination stenographer and clerk....But to get down to business here we are in the midst of things just as no one on the other side can realize them. Truthfully I can say that I don't believe one person in 100,000 has the imaginative ability to draw any kind of a mental picture that can equal the destruction and ruin the "Terrible Hun" has left behind. Our nearest position to the front lines has been three miles behind. But, say it softly, three miles isn't much when you remember that the large guns have a range of 12 or 15. I've heard guns roaring for days at a time and seen aeroplanes by the score.

There is an awful sameness about the war region that makes it hard to describe effectively. Of course I cannot tell you where we are nor where we have been. We are, thank Providence, near a small town that has not been totally destroyed by the Germans, as were the first towns we struck upon our arrival. Last night "Count" (Ferdinand Norcross, U. of M. '14) and I went to the town and had a real banquet. 'Twas the first real layout I have had the pleasure of attending since leaving home, and there's no use talking I sure did wade in. Today we are back to war bread and bully beef.

There are a thousand things to tell you about, from the trip across dodging the submarines, then the big parade in London which I learn was reported in the newspapers, to the move to France and the weird places we have touched so far, and the anxious uncertainty of the future.

So far I have learned a lot of things that I never had sense enough to realize in civil life. First place: we retire at 9.30 every night and arise at 5.30, quite some change for your friend, the midnight oil expert. Secondly: I have learned to appreciate what that old phrase "Home and Mother" *really* stands for. (And you can believe me that is worth the whole trip). Thirdly: my appetite is gradually diminishing (through no fault of mine, I assure you), and I am getting harder all over, even mentally. And fourthly: I have had a taste of real discipline. There are lots of other benefits that don't show themselves yet. If this business comes out safely for us, it will be the finest thing that could have happened to "yours truly."

THE UNIVERSITY OF MAINE

Gee! It brings back a lot of things that I have been doing my best to keep in the background—the good old days. I suppose most college men don't realize what a great time they are having until they have been out of the place sometime. But if I ever do get back again, you can bet your last cent that I'll get every bit out of college there is to get.

Of course there are a lot of the old boys gone from college this year, altho it is hard to imagine it when my last impressions were so filled with the faces of those I know. But still there must be a few of the old crowd back, so give them a hand for me.

There is a British "Tommie" in camp about three miles from here who has played with Cyril Maude in "Grumpy" in the U. S. He's rather an oldish "topper" and to see him standing on top of a car spouting Shakespeare reminds me of the old days.

Since writing the first part of this letter a number of days have passed during which time "Count" and myself obtained leave to visit a fairly large city near here. We had a large time on a small amount of money. We had the finest dinner you can imagine for 8 francs (\$1.40); there's no use talking, the French do know how to cook.

My address in this end-of-the-earth place is Co. B, 14th Engineers (Railway), American Expeditionary Forces in France.

This reads like a poor letter, but you try writing to some one when all the things you are interested in are prohibited, and then you'll see what a stunt it is.

Answer this letter soon as you can. The only things we have to look forward to are the letters from home (and from the girl) and a good feed about once in two or three weeks.

Faternally,

E. B. Norcross '19

American Expeditionary Forces, France
January 8, 1918

My dear S—,

I received your good letter, with all the news and Campus clippings a long time ago, and have since received your very welcome box. I should have written to you before, but I assure you my correspondence has just naturally *had* to be neglected. I am now beginning to get caught up and have some of my strain removed, but until now, ever since coming to France I have been driven with work. Let no one suppose that the process of coming to France to live or die for democracy is a proposition involving just patient waiting for the arrival of a Boche shell, or for the opportunity to hand him one. On the contrary, there is so much to be learned and then taught in the prosecution of this new game that an outfit has to be given a long session of hard living before it can be given the chance to die.

My thoughts often revert to the earnest months I spent at Maine. The farther I go along this strenuous road the more do I remember with satisfaction the serious efforts I put forth at Maine, and the more

AND THE WAR

do I feel justified in the necessity and nobility in the spirit of sacrifice which I used to urge so constantly. President Wilson is right that "the world *must* be made safe for democracy."

I hope you will carry the message for me to Maine that we who are already in France are satisfied with our lot and of the necessity and justice of our being here. I have not seen an officer or man who is not complacent at the prospect of his own possible sacrifice. There is a general feeling that whatever may happen to us is all right *providing* that all the folks at home will see it through, and will make our efforts worth while by backing us up to the attainment of the war's purpose with their own sacrifices.

I feel, though, and so does nearly everyone, much like a sergeant in one of our batteries, who was heard to say, "Believe me, after this job is done, if the Statue of Liberty ever takes a look at me again, she'll have to do an *about face*."

In some ways, the service here is more trying for us than for any of the others except the Canadians and Australians, just because we are so far from home. All the others can go to their own homes once in a while for a rest, but we will have to stick it out without a whiff of the air from "God's Country" no matter how many years the war may last.

However, I am thankful every day that I am here and not in the United States in these times. There is, I know, a scething, travail, and uncertainty in all sorts of ways at home which we are spared here.

The "Heavies" are the great game. With profound respect for all the rest, I am glad that fate and training have put me in the heavy artillery. If I could tell you the interesting things that I have already seen and heard, my letter would be a book. But the censorship regulations are your shield. Some day I am coming back with what I may have left in the way of arms and legs and bore you all to death. And yet, by then I probably won't want to talk or think about it.

I appreciated your box very much—both the contents and the thoughtfulness which prompted you to send it. I have much cause to be thankful for the remembrance in which I am held by my friends.

I hope you will take occasion to pass on to such of my friends as you meet the assurance that I have not forgotten them and wish them well.

Faithfully your friend,
Frank S. Clark, Capt. 6 Reg't., Coast Art'y Corps

E. Hyland May, last year's Editor of THE PRISM, writes the following letter of his experiences in the 351st Field Artillery at Camp Meade, Md.

January 19, 1918

Dear D—:

It is quite a while since I wrote you last and really I ought to go to bed as it was after two when I hit the hay this morning. I had an

THE UNIVERSITY OF MAINE

idea that last year at college was about the hardest work I had done and then Plattsburg seemed to have a little on Maine for work but I find that the REAL THING has it on anything I ever tackled before.

Last night reminded me of school very much; my second lieutenant and I sat here in the battery office, he reading the data from the old muster roll while I pounded it out on the machine. We were at it, as I said before, until early this morning. The muster roll is what contains the history of every man in the organization for the previous two months and when you have 213 men in the battery it makes quite a lengthy paper. Electrical Lab. reports have nothing on the paper work here.

Am senior first lieutenant in our battery, the renowned "Battery E" and for our battery there are just 204 darkies. Some outfit they are too! Course they find it kind of hard to find these mornings at Reveille as it is still dark at that time of the day but they manage to get around to formation pretty prompt. They are good workers too, rather thick when it comes to learning but, like the parrot, once it is learned they never forget it.

I go to school for two hours every day now, more artillery, and study some evenings when I get thru the battery work in time. I have charge of the paper work in the battery so it falls to me to make out the payrolls, musterrolls, insurance allotments, and write the letters. Have a little darkie I am breaking in as battery clerk so when he gets the ropes of the work it will be some easier for me. There are six batteries in our regiment here, the first 6 inch howitzer tractor-drawn battery (colored) in the United States.

Heard a good one the other night at the table: a private was coming back from town on pass rather late one night and was hurrying to get to his quarters before too late. He was stopped by the sentry, however, who said "Halt, who goes there?" "Halt?" says the private, "H—, I'm late now." Every now and then these darkies spring some good ones which would really be worth jotting down if the time permitted.

I imagine that some time in the dim future our division will be getting together preparatory to traveling overseas. In my opinion that time is some distance away, for we are only just commencing to teach these men artillery; they can't get it very fast either.

Write when you can and keep me posted. Give my regards to the rest of the bunch.

Hy.

PORTLAND BOY HAS RARE COLLECTION OF WAR SOUVENIRS

(Clipping from Portland Express-Advertiser)

Captain Sumner Waite, 29, a Portland boy, who is now doing his "bit" for his Country is the eldest son of Mrs. Annie L. Waite, 196 Newbury Street. He has by his many manly qualities and sterling ability

AND THE WAR

won rapid and deserved promotion in his chosen vocation of army life. Graduated from Portland High with high honors in the class of 1907, from University of Maine in 1911, and later attending Washington Military Academy and the military school at Fort Leavenworth, he was appointed 2nd lieutenant in January, 1912, being assigned to the 5th United States Infantry then stationed at Plattsburg, New York. In the Fall of 1915 he went with his regiment to Panama, remaining there about one year; was appointed 1st lieutenant early in 1916 and in May of that year was promoted captain in the 19th U. S. Infantry and appointed aide-de-camp on the staff of Maj Gen. Charles G. Morton then in command of the Department of Texas which position he still occupies. At the present time Captain Waite is stationed at Anniston, Alabama, where General Morton is in command of the National Guards or 29th Division.

Last September Captain Waite was among those selected to accompany General Morton and others upon a special mission to the battle fronts in France and his experience and observations while there and while going and coming through the submarine war zones would make thrilling reading if allowed to be published.

While visiting the battlefields "over there" Captain Waite secured a number of interesting souvenirs which upon returning to this country he forwarded to his mother who is the proud possessor of relics of some of the terrible battles of the world's greatest of all wars. Although Captain Waite does not so state in his letters to his mother yet he must have been rather near, if not actually, on the firing line "somewhere in France" for among the souvenirs sent home was a gas mask such as worn by the French and English soldiers when "Fritzie" is sending along his deadly gas bombs and the one Captain Waite sent he admits was worn by himself while on the battlefield.
